**Plus World Health Organisation First Acupuncture Specialists Course, Section Leader Gansu, PR. China 1990 as seen on China TV.**

**A Leading World Speaker & Expert e.g. World Congress (PR. China) 2006 And Also of The China Institute (P.R. China)**

**And Also of His BICCOM Institute (UK China International)**

**And Also Through His Many More Far Eastern Accreditations**

**And Also of His British & International Registrations**

**Plus His 40+ Year Traditional Lineage & C.V. In Health & Education**

**ULTIMATE CLINICAL ACUPUNCTURE STYLE, SYSTEM AND TRADITION IS ONLY AVAILABLE IN THE UK AT BICCOM.**

**This Is The Authentic Original 'OCTEM'**

**Oriental Chinese TAOIS Energy Medicine, i.e. Authentic Ancient & Modern Chinese Acupuncture Energy Healing Medicine**

**ULTIMATE CLINICAL ACUPUNCTURE  
COMES TO YOU THROUGH:-**

**PRESIDENT, PROFESSOR STEVEN R. JOHNSON**

**REGISTERED ACCREDITED PR. CHINA 1990**

This comes to you from his direct uninterrupted lineages of a large body of Oriental / Chinese and other Masters from whom he has been taught, qualified and licensed by over a 40 year + period! His lineage tradition represents many authentic Far Eastern, Chinese and other cultural traditions.

Here in the UK and the Far East.

These include a very wide range of ancient and modern lineages and also of their master's lineage making a huge growing network of this wisdom.

President, Professor Steven R. Johnson has an unequalled C.V. of Far Eastern lineage tradition of Masters.

Few '*on our planet earth*' are likely to exceed his extensive range of lineage traditions & C.V. in his professional field!

**You are invited to join him.**

**We & he & his people will assist you to your desired outcome.**

**You are very welcome.**

## **WHAT IS ULTIMATE CLINICAL ACUPUNCTURE**

### **IT IS THE TRUE ORIGINAL CHINESE CHI ENERGY NEEDLE & BURN ZHEN JUI ACUPUNCTURE MEDICINE**

It is of the TAO and TAOIS tradition that provides the route and interconnection to ORIGIN representing The Oldest World Lineage Tradition of Natures Way Life Philosophy of Health & Energy Chinese Acupuncture Medicine. It is detailed in the oldest Chinese Medicine textbooks and found in the oldest Chinese Philosophy books in the world aiding the understanding of the process of change, cosmos and life. It is of this evolved Chinese tradition, largely handed down by Master to Apprentice, an oral, experiential & clinical modality, 'Private School TAO'. It is in and from its original form and rubric, at Ancient Chinese Doctoring Standards, which also embraces modern innovative developments of this origin within this way.

To carry out its various treatment methods one has to be completely versed in Diagnosis Of Chi, The Individuals Makeup, The Cause & Path Of Illness, The Internal & External Environment, The Rhythm & Process Of Change etc All In Accord of TAO & TAOIS including its interrelationship with and embracing the New Modern PR. China TCM & Innovations and more.

**# You will therefore understand this is distinct, different and far superior to other forms of so called acupuncture and acupuncturists acupuncture** found in the UK & Western world. Courses that teach needle insertion in the name of acupuncture in a few days to e.g. physiotherapists, chiropractors, osteopaths, dentists, anaesthetists, nurses, doctors, detox therapists, auricular acupuncturists and other micro system acupuncturists, dry needle practitioners, and short course acupuncturists and other poorly trained therapists are not capable of Chinese Medicine Diagnostics of Chi etc which is essential to treat each individual patient safely and effectively with Chinese Acupuncture Energy Medicine. They are therefore carrying out dangerous practices. It is most certainly NOT Chinese Acupuncture Medicine. They should behave professionally and not mislead or endanger the general public/patients. They should say that they do not carry out Chinese Acupuncture Energy Medicine or imply so. They should also declare their length of training. It is more correctly described as '*NOT ACUPUNCTURE Western Origin Needle Therapy*'. Patients require correctly informed choices. These *so called acupuncture course acupuncturists* can not actually carry out Chinese Medicine diagnosis of Chi. This would need a long, thorough training in a Specialist Chinese Acupuncture Energy Medicine Institute that teaches Chinese Energy Medicine at Chinese Doctoring Standards. **You can have full confidence in BICCOM Ultimate Chinese Acupuncture.**

## **OUTLINE OF WHAT I WILL LEARN**

### **You Will Learn Many Incredible Things Through Our Progressive Range Of BICCOM Ultimate Acupuncture Courses.**

A Broad and Specialist Oriental Chinese Acupuncture Medicine Training for Effective Clinical Results + Gain Secret Knowledge, Skills & More.

Diagnostics of our individual Energic Fingerprint**

❖ **Other Specialisms and Super Specialisms**  
e.g. 'LOBOS', 'HG-08'; Ancient & Modern Systems;  
**ESOTERIC SECRETS + CLINICAL PRAGMATISM**  
**MOST IMPORTANT OF ALL YOU WILL LEARN**  
**HOW TO HELP PEOPLE**

## **HOW WILL I LEARN?**

### **LANGUAGE:**

All courses are taught by Professor Steven R. Johnson with his Faculty Support Team, they are delivered in the world professional language of English.

Technical Chinese and Japanese terminology is also used occasionally / in part by using a world renowned system where Romanised letters make the correct phonetic Chinese / Japanese sound e.g. Wade-Giles and Pinyin systems of reading, writing and speaking. A quick and effective way to develop the terminology you need. The vast majority of the language you use is English.

No one is required to become a linguist.

We also follow the World Health Organisation and P.R.China shorthand code system created for non Chinese speaking professionals to be able to study aspects of Oriental Chinese medicine.

E.g. names of acupoint, meridian, organ, function, dietary herbals etc.

### **TEACHING:**

Classes are small in size to provide best quality and personal guidance. Part Time attendance is the norm. Approximately half of BICCOM attendance training days are practical / clinical / case example focused, often in a workshop / clinic modality. Additionally there are lectures largely in the oral and experiential tradition.

Demonstration, Give, Receive and Share under guidance is a common method of teaching and learning.

The BICCOM HQ facility are old lodge buildings about 300 years old with teaching clinic and lecture facilities. It has a nice and rather special atmosphere.

### **HOME STUDY / PRACTICE:**

A significant amount of home study, practical, practise, practice is required and about ten hours per week at home is a good guide.

## **Our Style of Acupuncture & Training Method is Unique & Distinct in the UK.**

The Ultimate Acupuncture Training Courses here at BICCOM are also very different in bias and emphasis to U.K. degree courses which are themselves significantly academic in style, content and requirements with low / modest standard of clinical training compared to BICCOM or China.

Our BICCOM courses are more aligned to training with a Far Eastern Master and the Independent Private Chinese Acupuncture School pre 1949 when P.R. China was established. Exposure to the Master and practical learning and clinical experience were then the norm and a very significant aspect of the style of training.

We continue this style and tradition and also include the current P.R. China Specialist Training Style found in the Research Institute Training Hospitals which is beyond undergraduate TCM Degree training level.

We also include the Specialism Training Style provided at the P.R. China Government Licensed Private Specialism Hospitals e.g. President Du, Hong Shang Specialism Hospital Training Department where President Professor Steven R. Johnson has been awarded China Hospital Consultant Status amongst other awards by them (as have other China authorities).

There is a famous story of how Prof Johnson astounded President Du Hospital experts by diagnosing a patient as 'Jing Xu' detailing how and why before he even met the patient and when stood 20 metres away in the doorway! This astounded the Chinese Consultants.

Our method of training, combined with the intensive set course attendance days which are occasional at our BICCOM Institute, enable people to take our courses when they have other life commitments. A real bonus.

**Our Method, Our Fee Level and Our Fee Structure also save you thousands of pounds £ compared to U.K. university acupuncture courses and most other U.K. acupuncture institutions. This enables you to afford to take our BICCOM Course, to then help humanity by treating and helping them while taking part in the growth and longevity of this ancient authentic invaluable tradition.**

## Our Style of Acupuncture & Training Method is Unique & Distinct in the UK. Continued

The first 8 Days of Attendance approximately (circa 4 to 6months) of the OHT. Dip Course IS ALSO The Accredited Access and Foundation Module i.e. the First Module of the Ultimate Acupuncture Clinician Course.

AND Is Also Module 1 Of Our Ultimate Acupuncture Clinician Course.

See the Oriental Health Therapy Diploma Brochure for course details.

Available as a download on [www.biccom-college.com](http://www.biccom-college.com) homepage.

A natural interest and aptitude towards helping people and the dedication to doing this are requisite characteristics for success through our Ultimate Acupuncture Clinician Course.

Circa 50% of our set course attendance days are practical in nature. Learning comes significantly from doing, giving, receiving and sharing. Those with practical, hands on capabilities will do well with Our Ultimate Clinical Acupuncture Clinician Course. Attendance days include workshops and lectures and also involve case cameos, clinical exchange amongst course participants and various modalities of clinical exposure / experiences. The practical clinical content, level and range of skills of Our Ultimate Acupuncture Courses exceed that of ALL U.K. Acupuncture degree courses, our Clinical Range & Efficacy Standard Is Far Superior.

## ACUPUNCTURE CLINICIAN COURSE CONTENT

Please note this is an outline only and cannot reflect the complex detail of the subject which can only be really understood by taking the course. The detail here gives you a good indication of the subject and what you will learn. While we present a Staged / Modularised / Unit format the subject is in fact one whole and a continuum as is your own development. This supersedes the Unitary format. Course and Unit content is subject to change to best accommodate the participants, professional need & growth, all at the discretion of BICCOM.

### **FIRST UNIT:**

Auricular (Health by Ear) Protocol Micro-System Ultimate Acupuncture  
Ear Micro-System enables treatment of the whole person by ear acupoints  
Also includes 'Set Auricular Treatment Protocols' e.g. Detox; Smoking &  
Addiction; Stress; etc **Enabling Delivery of these Auricular Acupuncture Skills  
under Temporary Licence to Fee Paying Clients after circa 4 to 6 months.**

### **SECOND UNIT:**

Body Protocol Micro-System and Macro-System.  
Holistic Barefoot-health Ultimate Acupuncture.  
The Whole Body is now the landscape to explore the many ways acupoints and  
meridians & modern innovative methods bring about health by needle.

Conclusion of the Clinical Log which starts in the Foundation Module being  
developed from Unit One onwards reflecting your clinical development  
Professional Responsibilities including Code of Ethical Practice  
Preparation for Initial Professional Licensing  
+ Final Assessment leading to Licensing and Registration and Designations

## **FINAL INFORMATION ON THE STUDY UNITS AND OUR ULTIMATE ACUPUNCTURE CLINICIAN COURSE**

Each Unit has also got a significant amount of associated guided distance learning i.e. home study + home practical + home practice undertaken at home or in your clinic / health facility. This represents approximately 10 hours per week.

This required associated distance learning component is in addition to the BICCOM Institute set course attendance days. This associated distance learning component is likely to require about 1,000 hours over circa two years to successfully complete Accredited Acupuncture Clinician Course (PG 3 Part 1).

After each of the First and Second Unit's there is an Advised Optional 1 Day Review & Development including Revision and Practice Workshop plus Lecture. After the Third Unit, prior to the Final Assessment there are 2 Advised Optional Attendance Day's for Review & Development including Revision and Practice Workshop plus Lecture.

In Total therefore there are 4 Advised Optional Revision and Practice Attendance Days. These are provided extra to the set course attendance days and an extra £88 fee is required per person for each of these extra Optional Revision Attendance days if chosen. Novices should consider these as being very strongly advised.

Those course participants who would like more guidance and also require more attendance days must simply discuss the need with ourselves and we then advise a set number of such days and schedule them. This in effect extends the time to finish the course. There is an extra fee to pay for such a provision, extra to the stated course fee.

### **REACHING THE REQUIRED STANDARD IS THE KEY ISSUE.**

**This Ultimate Acupuncture Clinician Course may take 24 months  
(Circa 54 to 60 Days of attendance over Two Years is likely)**

**This is dependent upon the Standard Accredited at Entry, personal aptitude and hard work. Some may take longer (by agreement). We are here to help you.**

This is a good guide but please remember everyone is an individual.

## **ON COMPLETION WHAT QUALIFICATION LICENCE REGISTRATION DO I ACHIEVE?**

YOU RECEIVE A GOLD STANDARD PROFESSIONAL AWARD UK.  
Upon satisfactory completion of the 'Acupuncture Clinician Course' you will have attained the 'Standard Required for Safe Effective Clinical Competency & Initial Professional Licensing Registration Awards in Ultimate Clinical Acupuncture' U.K. After being proposed to the BICCOM Board for Registration these Professional Qualifications Licensing of Distinction are then bestowed upon the newly qualified and Registered Professional.
